Chapter 1 by Soumil Pandita

TRIS

"Hey Tris, i'd like to talk to you." Says Four. He sounds really nervous as if it had been something hazardous.

Chapter 2 by -

I step outside the compound and follow him to a deserted area. He takes my hand in his and just stares into my eyes. I give an anxious smile.

Four leans forward speaks in hushed tones. "Tris... I" he takes a deep breath "I have mean made commander. I will have to leave tomorrow morning for training."

I pull my hand back and take a step back. "How long have you known?"

"Two months, I wanted to tell Tris, but I swore I wouldn't until the time came to go."

"I can't believe that you would let me think that we..."

"If the enemy were to know who the new commander is, our mission would be useless. Right now, they have no clue, but they're searching for any information. This can't be told to anyone."

I walked up to Four and hugged him. I wondered what this would mean for us. What this would mean for - I rubbed my stomach and knew, that I also had a two month secret to tell...

I don't know how to tell him. Every time I plan to I opt out and forget to tell him. But I can't hide it forever, soon my stomach will get bigger and I won't be able to stop it.

For now I'll carry on with my ways and worry about Four's departure.

I meet Four on the helicopter pad where him and the other group of soldiers stood. I didn't know what to do or what to say so we stood together in silence.

Not long after Four left that I realized that he might never have even know that I had a baby growing in my stomach.

Christina ran into me while I was out getting coffee. This time yo show me her newest tattoo on the back of her neck. It was a moth, one of her worst fears.

Then days passed so quickly and my stomach grew. One day Chris came up to me and asked if I was pregnant. I didn't know what to do or how to say it that everything came out at once.

Chris had freaked out. She then offered me a list of possible names for either a boy or girl.

More and more days passed. Four was to arrive back today and my stomach was so obvious that I was flipping out.

The helicopter landed and Four had run out. He stopped in front of me and rubbed my stomach. I have him a confused smile and he smiled broadly back.

He then stood up and hugged me. He didn't even get mad. I had hid a huge secret from him.

Unless he was mad.

their moment. Christina crumpled to the floor sobbing tears of joy and I stood there stunned by what had just happened. Five doctors and ten nurses ran in. Four wouldn't leave her side. They hooked Tris back up to the monitors. Tris was unaware of why everyone was so emotional and why she was laying in a hospital bed. Our eyes met for a split second, it was like a lightbulb went off in her head and she remembered the day she was shot twice. Once in the side, and once in her shoulder. The same shoulder with the Abnegation helping hands.
